CERTIFICATIONS

IBM | What is Data Science?

DS4A / COLOMBIA | Fundamentos de Analítica de Datos

IBM | Python for Data Science, AI & Development

GGL | Cátedra de liderazgo STEAM

ACADEMICAL BACKGROUND

Universidad de Los Andes

Systems & Computing Engineering

Expected Graduation: October 2026

Data Analytics, Automation, and Business Intelligence specialist with experience developing solutions that transform data into actionable insights for informed decision-making. Proficient in Python, SQL, and Business Intelligence tools such as Power BI, Sigma, and Looker to integrate, analyze, and visualize data from multiple sources, building dashboards and key performance indicators (KPIs) that support business strategy. Focused on optimizing processes, automating workflows, and translating business requirements into scalable technical solutions that deliver measurable impact.

PROFESSIONAL EXPERIENCE

BI Developer | TeamsPlus

June 2025 - Present

- Responsible for the data reporting cycle of a financial account
- Data processing and modeling through pyprocess complex data and create ETL Python, SQL and PowerBI
- Creation, modification, update, and optimization of reports in PowerBI
- Conduct analysis and deliver actionable insights for operational improvements
- Design and maintain tables and data relationships
- Manage data using SQL Server (jobs)
- **Tools: PowerBI, DAX, Tableau, Excel, SQL Sever, Python**

Business Intelligence Analyst | TP

March 2024- June 2025

- Responsible for the data reporting cycle of a financial account
- Data processing and modeling through pyprocess complex data and create ETL Python, SQL and PowerBI
- Creation, modification, update, and optimization of reports in PowerBI
- Conduct analysis and deliver actionable insights for operational improvements
- Design and maintain tables and data relationships
- Manage data using SQL Server (jobs)
- **Tools: PowerBI, DAX, Tableau, Excel, SQL Sever, Python**

Talent Data Analyst | Prometeo Talent

October 2022- March 2024

- Scraped and filtered candidate data from LinkedIn and public platforms using custom queries and automation tools to match technical role requirements.
- Built funnel dashboards in Looker Studio, identifying bottlenecks, drop-off rates, and optimizing sourcing strategies.
- Delivered data-driven insights to reduce time-to-fill, improve pipeline quality, and align hiring with team needs.
- **Tools: Python, Looker Studio, Google Sheets, Data Miner, Slack**

VOLUNTEER EXPERIENCE

Data Manager | AIESEC in Colombia

July 2024- June 2025

- Led a tech team of 2 (developer & analyst), delivering scalable solutions in automation, analytics, and system deployment.
- Developed and maintained API integrations with HubSpot and Podio, automating lead workflows via Apps Script and Zapier.
- Built interactive dashboards in Looker Studio to monitor funnel performance and operational KPIs in real time.
- **Tools: Apps Script, Zapier, HubSpot API, Podio API, Looker Studio, SQL, Google Sheets, AWS Lightsail, GitHub, Slack**
